Proposed Information Collection; Comment Request; Greater Atlantic Region Permit

Family of Forms

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW,

Washington, DC 20230 (or via the Internet at JJessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Elizabeth Scheimer, Greater Atlantic Regional Fisheries Office, 55 Great Republic Dr., Gloucester MA 01930, (978) 281-9236, Elizabeth.scheimer@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection. Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to NOAA's National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect information from users of the resources.

The Secretary has enacted rules to issue permits to individuals and organizations participating in federally controlled fisheries. Permits are necessary to: (1) register fishermen, fishing vessels, fish dealers and processors; (2) list the characteristics of fishing vessels and/or dealer/processor operations; (3) exercise influence over compliance (e.g., withhold issuance pending collection of unpaid penalties); (4) maintain contact lists for the dissemination of

important information to the industry; (5) register participants to be considered for limited entry; and (6) provide a universe for data collection samples. Identification of fishery participants, their gear types, vessels, and expected activity levels is an effective and necessary tool in the enforcement of fishery regulations.

This collection also includes the requirement for participants in certain fisheries to use onboard vessel monitoring systems (VMS) and to notify NMFS before fishing trips for the purpose of observer placement. Other permitting in this collection includes the written request to participate in any of the various exemption programs offered in the Greater Atlantic region. Exemption programs may allow a vessel to fish in an area that is limited to vessels of a particular size, using a certain gear type, or fishing for a particular species. This collection also contains paperwork required for vessel owners to request gillnet and lobster trap tags through the Greater Atlantic region permit office.

Lastly, vessel owners that own multiple vessels, but would like to request communication from NMFS be consolidated into one mailing (and not separate mailings for each vessel), may request the single letter vessel owner option to improve efficiency of their business practice.

II. Method of Collection

Vessel permits

All vessel permit applications, including permit applications and renewals for vessels, dealers, and vessel operators, as well as gillnet and lobster trap tag purchase, are submitted by signed paper form sent in the mail.

VMS requirements

Vessels with VMS requirements are required to declare their intent to fish (e.g., declare into the fishery) and submit daily catch reports using electronic VMS units on board the vessel. Other VMS actions may include trip start and end hails, pre-landing notifications, and days-at-sea (DAS) adjustments. VMS power down exemption requests are submitted by signed paper form.

Observer program call-in requirements

Vessels issued certain permits such as Northeast multispecies, monkfish, scallop, and Atlantic herring permits are required to give advance notification to the Northeast Fisheries Observer Program (NEFOP) before the start of a trip in order to receive a fisheries observer or a waiver. Vessels use an online pre-trip notification system, e-mail, toll-free call-in number, or a local phone number to comply with this requirement.

Exempted fisheries programs

Vessels that would like to request participation in one or more of the Greater Atlantic region fisheries exemption programs must either submit a request electronically using their VMS unit, by declaring into an exempted fishery prior to the start of a trip, or by mailing in a written request to participate in the program(s) of interest.

Vessel owner single letter option

Vessel owners that own multiple vessels, but would like to receive only a single Greater Atlantic Fisheries Bulletin or small entity compliance guide instead of one for each vessel permit, must submit a written request to NMFS to participate in this program.

III. Data

OMB Control Number: 0648-0202.

Form Number(s): None.

Type of Review: Regular (extension of a current information collection).

Affected Public: Businesses and other for-profit organizations are primarily affected.

Individuals or households, state, local or tribal governments, and the Federal Government are also affected.

Estimated Number of Respondents: 62,295.
